

With the first of these, the **W**orld Health Organization (WHO) has been asked to help the United States and other countries to develop a new international health organization. The WHO is a part of the United Nations, and it is the only international organization that has the authority to make health laws for all countries. The WHO is also the only international organization that has the authority to make health laws for all countries. The WHO is also the only international organization that has the authority to make health laws for all countries.
